## HYBRID CORN

My advice to you—

Don't plant it!

Why?

Because it is too severely inbred. We have always been taught not to inbreed our chickens, hogs, cattle or vegetation. It may prove of value to plant Hybrid corn, but the chances are against it. Nevertheless, if you want to plant Hybrid corn why not be sure that you have the best. Be sure that you get Hybrid if you buy it from us or someone else. And be sure you get Certified Seed in Sealed Bags.

Missouri State Certified  
Packed in sealed bushel bags.  
No. 8—120 days; No. 47—110 days  
Edgedrop; Small Round and Large  
Round Grains. Ask us for prices.

## HORTON GREENHOUSE

HORTON, KANSAS

Again at the beginning of a new season we come to you with our new price list on seed and plants, and hope you will refer to this list when you are in need of them. No matter how much care is given the crop, if the seed and plants are not of the finest quality the returns are not as profitable as they should be. Planting poor seed is a waste of time and labor and for that reason it is our aim to have the best seed and plants obtainable for you.
